

Facilities Update Weekly

June 17, 2011

Mariemont High School:

- The new stadium lighting installation has begun.

Mariemont Junior High at Fairfax Site:

- The walkway around the school to the baseball field will be closed for a few weeks while the storm system is being installed.
- Utility installation will also be starting this week.

Mariemont Elementary:

- Demolition still continues.
- The concrete pad for the crane will be installed around June 21 on the West St. side of the building on the school property. West St. will be closed periodically during the summer while the crane is being used.
- The asphalt in the teacher parking lot will be removed mid-week to get ready for the drilling of the geothermal wells. The parking lot will be closed for the summer.

Terrace Park Elementary:

- Installation of dry wells and the building pad. This week dry wells are being installed and the building pad is being constructed.

FYI

- There have been requests for bricks from Terrace Park and Mariemont Elementaries. Next summer we will be putting bricks outside of the fencing for those who would like a souvenir brick. I will let everyone know through my weekly update.
- If you had a student who had art work hung before 2003 in the halls of Fairfax, Mariemont or Terrace Park, please stop by the Board of Education to pick it up. ***have attached the names of the students with art to be returned.***
- If you have any questions, please feel free to call (309-8743) or email me (kryan@mariemontschools.org). Also, check out the district website for building plans and more information (mariemontschools.org)

Have a great week!

Kathy Ryan, Program Manager for Mariemont Schools
